In re Reissue Application of)
U.S. Patent No. 5,327,577 to) Received
Jan-Erik UDDENFELDT et al.) Group Art Unit: 2746 NOV 12 1998
Application No.: 08/938,832)
Filed: September 26, 1997) Examiner: E. Urban Group 2700
For: HANDOVER METHOD FOR)
MOBILE RADIO SYSTEM)

SUPPLEMENTAL DECLARATION IN SUPPORT OF REISSUE APPLICATION

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

We, Jan E. Uddenfeldt and Alex K. Raith, as joint inventors in the above-identified Reissue Application, hereby declare as follows:

- (1) We are citizens of Sweden, having residential addresses of Sjöhällsstig 59, 165 71 Hässelby, Sweden and 805-A5 Park Ridge Avenue, Durham, North Carolina 27713, U.S.A.
- (2) We believe that we are the original, first inventors of the invention described and claimed in the above-identified Reissue Application.
- (3) We have reviewed and understand the contents of the specification and the claims of the Reissue Application.
- (4) We hereby claim the benefit of foreign priority under 35 U.S.C. § 119 with respect to Swedish Patent Application No. 8802229-8, filed on June 14, 1988.
- (5) We acknowledge the duty to disclose information that we are aware of which

Reissue Application of
U.S. Patent No. 5,327,577

is material to the examination of this Reissue Application in accordance with 37 C.F.R. § 1.56(a).

(6) We verily believe U.S. Patent No. 5,327,577 to be wholly or partially inoperative or invalid since we arguably claimed more than we had a right to claim.

(7) More specifically, an error arose due to the fact that the following document (submitted in an Information Disclosure Statement) was not identified until prosecution of the corresponding, European patent application:

- (i) Herold, W., *Changing Radio Zones of Fixed Stations by Mobile Subscribers*, Communication from AEG-Telefunken Wireless Communications Research Institute, Ulm (Germany), pp. 173-179.

This resulted in claim 1 of U.S. Patent No. 5,327,577 being broader than patentees had the right to claim.

(8) As a result of the following amendment to claim 1, *combining, in said mobile station, information transmitted by said first base station transmitter and information transmitted by said second base station transmitter to reconstruct said message information*, submitted in the above-identified Reissue Application, Alex K. Raith has been added as an inventor.

(9) All errors in the patent which were corrected in the present reissue application, and are not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the undersigned.

Reissue Application of
U.S. Patent No. 5,327,577

(10) The undersigned declares further that all statements made herein are of his own knowledge and are true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
